Experience

Clover — Senior Designer II

2022 - 2026

- Lead designer of web experiences for VIP clients and major hospitality groups
- Collaborated with the product and engineering teams to enhance our customer offerings
- Developed and shared reusable code snippets to speed up design and functionality across sites
- Maintained and evolved shared codebases to meet accessibility and responsive design standards
- Created a customer-facing catalog of available components to simplify understanding and selection
- Developed prototypes to test user flow of product feature concepts
- Joined customer calls to provide design expertise and ensure all requirements were accommodated
- Animated demo videos of our product offerings to entice users to subscribe to higher-revenue plans
- Led weekly meetings to keep the design team aware of updates to our platform for consistency
- Represented the design team during bi-weekly company-wide presentations on ongoing projects
- Supported the onboarding of new designers through project reviews and training presentations
- Created resources for customer success team to quickly learn and reference best practices
- Participated in a yearly workshop to mentor students at an after-school fintech program
- Completed professional development training in communication, collaboration, and productivity
- Successfully delegated operational tasks to focus on high-priority initiatives and fan team growth
- Consistently asserted myself as the highest-scoring designer during monthly reviews

BentoBox — Senior Designer

2018 - 2022

- Developed preset website designs to speed up client turnaround across diverse brands
- Designed email campaigns demonstrating the value our platform brought to customers
- Storyboarded and animated product and marketing videos to increase customer conversion rate
- Illustrated and animated icons on company website to increase clarity of user journey
- Contributed written and illustrated content for company blog to increase industry visibility
- Updated design of digital and print collateral during company rebrand
- Worked with vendors of templated design programs to allow customers to own marketing efforts
- Attended design conferences to gain expert knowledge of accessibility requirements
- Designed merch to raise money for members of the industry impacted by lockdown
